

A Slice of Vietnam in Kolkata

Caravan Café launches slew of Vietnamese coffee

Kolkata, Dec 19: Caravan Café, Kolkata's first Caravan themed café located beside Salt Lake City Centre 1 has introduced a slew of Vietnamese coffee varieties that are brewed to perfection, for an authentic taste. This is a first-of-its-kind launch to give the coffee connoisseurs of the city a taste of the unique coffee varieties like the Vietnamese Egg Coffee and Vietnamese Filter Coffee, transporting them to the magical city of Vietnam with its quaint cafés and exotic brews that reflect their strong coffee culture as a community.

Vietnamese Egg coffee is a rich, creamy and luscious coffee made with whisked egg, sugar, and creamy ingredients ranging from condensed milk to cheese and butter! As decadent as a dessert, the Vietnamese Egg coffee is a delicious drink with a historical backstory.

Known as cà phê trứng in Vietnam, this unique coffee variety was invented in Hanoi by Nguyen Van Giang. In response to a milk shortage caused by the French War, Giang whisked in egg as a substitute ingredient. Giang's signature drink became so popular that he opened his own café, Café Giang, where his son still serves the legendary egg coffee.

Vietnamese Filter coffee is traditionally made with a Vietnamese coffee filter or Phin, which allows for a slow drip brewing process. Vietnamese Filter Coffee is prepared with sweetened condensed milk. The rich, thick and sweet milk balances out the bitterness of the strong coffee resulting in a refreshing and delicious beverage.

Drop in at Caravan Café beside City Centre 1, Salt Lake to take a sip of these flavourful and iconic Vietnamese coffee. Also experience the vibrant colours of Vietnam as the ambience is recreated with beautiful paper lanterns to transport you to the romantic city of Hội An in Vietnam, also known as the City of Lanterns.

Chúc ngon miệng! Bon Appetit!
